# OVERVIEW

- Our volunteer program offers opportunities for those seeking to help in the hard work of creating and providing a dignified life for orphans and abused children.
- The main objective of this program is to integrate the skills and abilities from our volunteers with the unique experience that only our children at the orphanages can provide.

# A COMBINATION OF EXPERTISE

The emotional, social and physical development as a child has a direct effect on their overall development into adulthood. This is why we give particular importance in offering our children different opportunities of growth, unique to each boy and girl.

In this program, the volunteer has the opportunity of sharing their knowledge in the different available areas, while at the same time acquiring the wonderful experiences our children give - even as young children they have so much to share with others.

# DIFFERENT AREAS TO WORK

Respect & Empathy – Selfesteme – Independence – Abstract & Critical Thinking – Empowerment – Emotion Management – Literature – Mathematics – Arts – Music – Astrology – Dance – Science – History – Sports – Languages – Film – Photography – Gastronomy – Patisserie – Jewelry Making – Gardening – Carpintery

# RESULTS EXPECTED

Throughout the program, our volunteer coordinator will follow up on the Volunteers progress within its plan of action.

From this experiences, we would like the children to learn the importance of human values, learn to manage their emotions, learn about hard work, inner strength and independence, and foster creativity.
